

Animation & Graphics Summer Project 2026

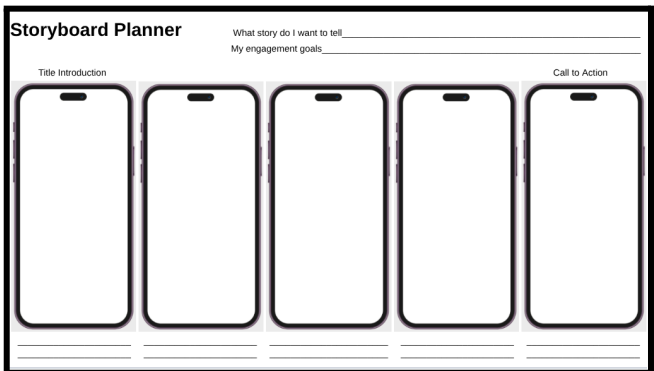

Congratulations on choosing to study with us and make Animations and Graphics. To get you A Level ready and fire up your imagination we have some creative things to do. This will be your way of introducing yourself to the rest of the group and your teachers.

The Theme...

It's All About You (And Me Too)

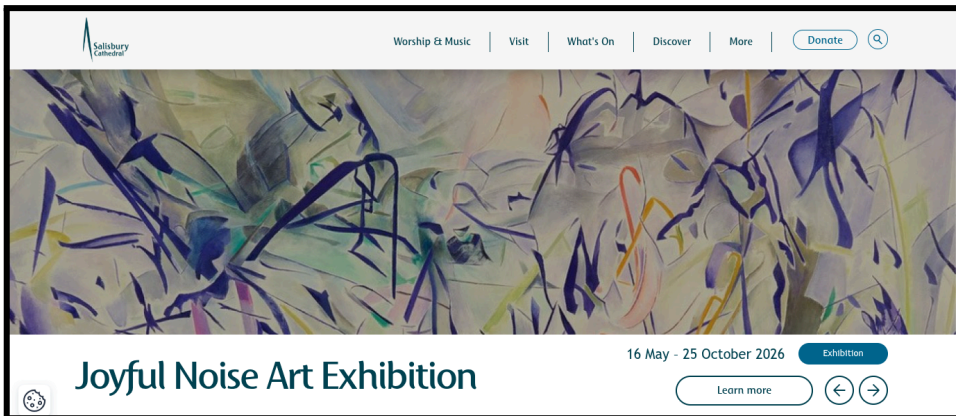

5 challenges (complete at least 3 for your first lesson)

Blender computer graphics software experimentation. Screenshot and record your work ready to share.

Storyboard your dream summer holiday

Make a propaganda poster to convert others to your way of thinking on a topic you are passionate about

Visit a cultural venue or event and document with photos and write a review of your experience

Create a Zine on a theme

Bring all that you have done and made in response to these prompts so that drawings, images, videos, writing can be uploaded to your portfolio.

Storyboard Planner

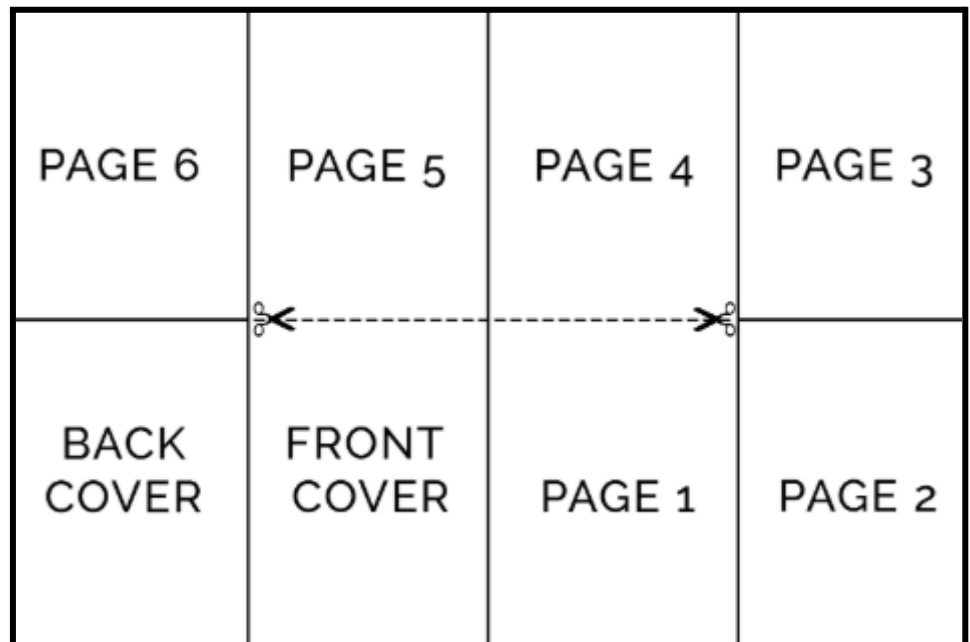

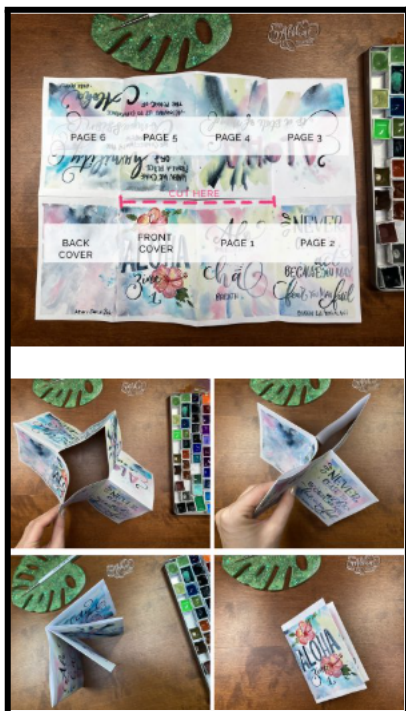

What story do I want to tell _____

My engagement goals _____

Title Introduction

Call to Action

Storyboards suggested template. However feel free to make your own

Use a big bit of paper and fold and cut like this to make your Zine on a Theme

Blender is free to use Computer graphics software for modeling, sculpting, rigging, animation, simulation, rendering and video editing.

Near the cathedral is a sculpture with info that is on display all summer. You can easily take photos and sketches and Record your reaction as a review.
