Lino printing

Screen printing

Composition

Scale

Structure

Mixed media

Digital imagery

Entry Requirements

Minimum 5 GCSEs at Grade 4 or above

Including at least grade 4 in Art, Photography, graphics or a portfolio of work to be explored at interview.

Course Description

The Art & Design course in Fine Art is designed to strengthen and build on the skills, techniques and processes acquired in GCSE Art & Design such as: recording ideas and observations, developing work informed by artists, designers and craftspeople, experimenting with media and materials, and reviewing and refining work.

Through taught lessons, workshops and independent study you will be introduced to a variety of experiences exploring a range of art media, techniques and processes and be made aware of traditional and new technologies. These will include painting and drawing, mixed media, sculpture, printmaking, animation, video, and photography.

There is a course fee of £50 per year to cover costs of materials used in the studio pack. Students are required to buy their own materials for extended experimental work and for final pieces.

"For me, art is about expressing ideas, values and beliefs in a way that will move someone to think differently. The world needs more artists, poets and bohemians than ever before."
