

Business A Level Summer Induction work

Preparing Year 11 Students For Year 12 Business Qualifications With “Inside Aldi”

When my new year 12 students join me in September I often have a mixture of those who have studied the subject at KS4 and those that haven't, those who follow real world business stories and programmes and those that don't, those who understand the basics and understand what the subject is about and those that have little idea! This got me thinking as to what meaningful, yet engaging, work I might set for year 11 students. The result of which is this Summer Work and corresponding 4 worksheets. These should provide you with a considerable range of work that will meaningfully engage you.

What I would like you to have, as a basic level of understanding, when you turn up in September?”

- a realistic expectation of the subject and the range of topics covered
- an appreciation of the fact that there will be lots of new content
- an appreciation of the fact it will include numerical skills
- some understanding of the skills that they will need to develop over the 2 years of study
- an ability to contribute in class with real world examples
- an inquisitive mind

With this in mind I have downloaded a series of 4 worksheets all based around the Channel 5 documentary “Inside Aldi”. I must say well done to Channel 5.

Please watch the Documentary and complete the 4 worksheets. Bring these worksheets to your first class.
