

Esports

BTEC Level 3 National Extended Certificate

Topics Studied

Introduction to Esports
Skills, Strategies and Analysis
Enterprise and
Entrepreneurship
Health, Wellbeing and Fitness

Entry Requirements

Minimum 5 GCSEs at Grade 4 or above

Course Description

S6C is proud to offer the BTEC National Extended Diploma in Esports. This is an amazing course which helps you directly enter the Esports industry but also allows you to progress to university to continue your studies in Esports or a related field.

The Extended Certificate is the equivalent to studying one A Level. Over the course of the 2 years you will develop a number of skills relating to the Esports industry as well as relevant industries such as business, marketing, events, health and wellbeing and tech.

As part of the course you will compete within British Esports Association and their various tournaments. This will see you and your team compete with colleges and universities from across the country.

It helps if you are familiar with esports games but this is not a requirement, however a willingness to become engaged in the industry is essential.

"Esports is something that I've always been interested in. It's the perfect time to get into the industry as it is growing rapidly. I love being able to study esports and having fun gaming with my friends."

Alan, previously Wyvern College
