2. Wider reading, TV and films which will help introduce you to key ideas (Please note although these will be helpful purchasing these are not a requirement of the course):

- Vady and Gorch, *The Puzzle of Ethics* (This is a great introduction to a number of the ethical theories we will be studying)
- Dawkins, *The God Delusion* (Great for challenging religious views)
- The Handmaid's Tale* (Book or TV adaptation- quite tough to watch in places but an interesting look at the issues with feminism and religion)
- The Good Place* (This is great for life after death)
- Inferno* (This looks at Dante's view of Hell)
- Lucifer* (available on Netflix and Prime)
- Crash course Philosophy and Philosophytube* (does some great online videos on the topics above)

3. Find some examples of the current ethical issues facing our society. For example: The Supreme Court rejecting the parents' wish to prolong the life of their sick baby, the deportation of refugees to Rwanda, and corrupt politicians. This will be key for examples in ethics essays.
4. As you will see from the list above there is a huge amount of content, but one of the most important skills you will learn on this course is how to write convincing eloquent arguments. Try writing a 500 word essay on one or more of the questions below. You can use the textbook, internet and other other resources to help. You can send these to stye@s6c.mlp.college for feedback. These are A level questions which we will be doing next year so they should be challenging.

- Is love the highest Christian law?
- Is it more accurate to say 'I am' a body rather 'I have' a body?
- Is the universe better explained by the existence of God or random chance?
- To what extent is it true to say no action is wrong in every possible circumstance?
- Is DNR not the same as euthiniasia?
- 'The only concern of Business should be to make profit'. How far do you agree?
- Is Hell eternal?

Essay writing gold:

- Start by making a table with points for each side of the argument
- Try and include examples to support points this can be knowledge or scenarios
- Think about how to move from one point to another- analysis is key - challenge the arguments -what are the strengths and weaknesses?
- You need to have an overall argument that directly answers the question- make this clear in the introduction
