

Software Design & Development

BTEC Diploma in Creative Media Practice

Topics Studied

A1 Skills development
A2 Creative project

Entry Requirements

Minimum 5 GCSEs at Grade 4 or above

Course Description

While studying this course you will gain current skills and techniques across various disciplines relevant to industry today.

The computer science industry changes at a rapid pace. You will learn to adapt and mirror the skill sets required to make you more attractive to industry and university.

You will gain a solid foundation in all aspects of software design and programming, with a strong bias to practical study that reflects how industry works.

You do not need any prior knowledge to take this course.

100%

"The course has a hands-on approach which gives you a realistic idea of programming as a career."

Mike, previously Wyvern College
